

IN THE SPECIFICATION

Please delete the title and substitute therefore – Promoter Sequences Providing Male Tissue-Preferred Expression in Plants--

At page 5, line 22, after “cDNA” please insert –(SEQ ID NO: 3 and SEQ ID NO:1)—

In the Abstract please delete “Nucleotide sequences mediating male fertility in plants are described, with DNA molecule and amino acid sequences set forth” delete “also in “Promoter sequences and their essential regions are also identified” and after “identified” please insert –which provide for plant male tissue-preferred expression--
